SERVICES

Green Tag Center - Consolidated safety and safety relief valve repair center

ASME V & UV - Stamp holder/National Board VR holder, Sec 1 and Sec XIII, providing certification for all your need safety and safety relief valve needs

MARC - Masoneilan authorized control valve repair center

AW Chesterton - Authorized mechanical seal repair center

VMA/VRC - Certified by the Valve Manufacturers Association to provide API 621 valve repair services

Line Valve/Field Machining services

Repacking, live loading and low emission packing solutions

AUMA - Authorized actuator repair center

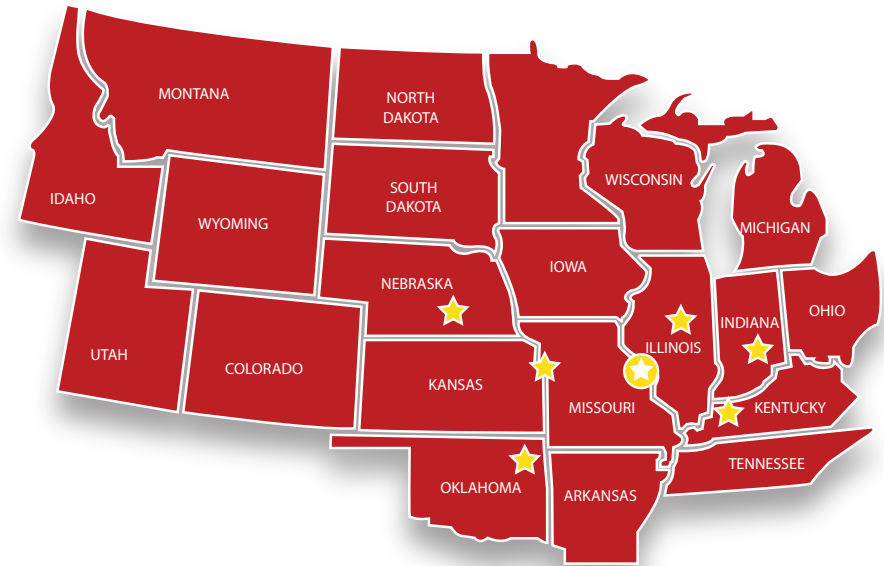

Rotating equipment repair and parts

Powell - Authorized repair center

API 598/67A/6D repair services

Electric actuator repair

Pressure/vacuum relief valve repairs

PUMP PACKING

Pump packing is ideal for the controlled leakage required for certain applications. Chesterton offers extensive applications expertise in pump packing solutions for rotating equipment— including design, selection, installation, testing, and more.

Chesterton's innovative and award-winning packing solutions reduce power requirements for the pump and result in less leakage — lowering the total life cycle costs of the pumping system.

VALVE STEM PACKING

Valve stem packing plays a critical role in overall valve performance. Reducing or eliminating process leakage is critical not only to process performance but also to employee safety, regulatory compliance and profitability.

Whether you are dealing with high pressure steam or chemical conditions, you can rely on Chesterton sealing specialists for applications expertise and innovative valve packing products to help your company realize optimal valve performance.

MECHANICAL SEALS

Chesterton offers innovative, award-winning mechanical seals for pumps, agitators, mixers, and other rotating equipment simplifying installation, improving reliability, and extending the performance of high value assets. Companies around the world turn to A.W.Chesterton Company for mechanical seal expertise — in design, selection, installation, field service, and more.

BEARING & ROTARY SEALS

Bearing seals are designed to extend bearing life and save money by reducing downtime and increasing reliability. Chesterton's bearing seals range from face sealing-type arrangements to advanced lip seal designs.

INDUSTRIAL LUBRICANTS

Chesterton's lubrication program provides you the expertise and support for all your rotating equipment needs. Chesterton's extensive knowledge and experience in many industries has helped us to create programs that will extend equipment life, improve reliability, increase productivity, reduce costs, and increase profitability.

HYDRAULIC SEALS

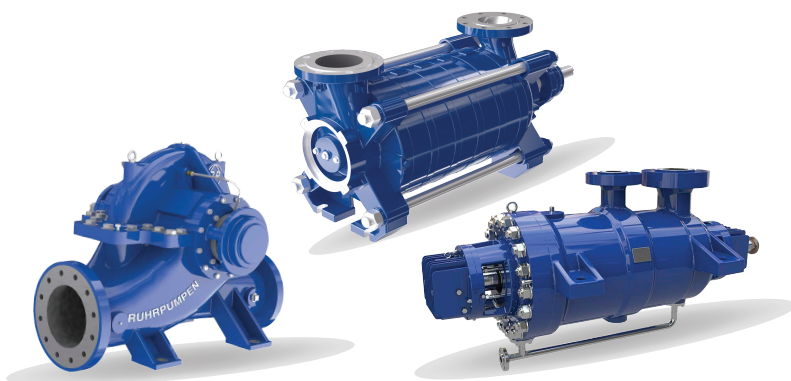

Chesterton's broad range of high-performance hydraulic seals are made from exclusive polymer materials for use in a wide range of demanding industrial sealing applications. These seals have virtually no size restrictions and are specially designed to optimize equipment performance.

ARC INDUSTRIAL COATINGS

Chesterton's ARC industrial coatings provide advanced protection for metal and concrete substrates across a wide spectrum of challenging applications. Customers count on Chesterton's low-VOC, 100% solids protective coatings to deliver long-term protection for critical industrial processes and equipment efficiency.

ROTATING EQUIPMENT

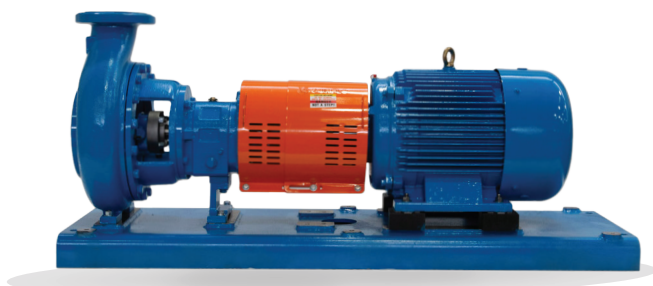

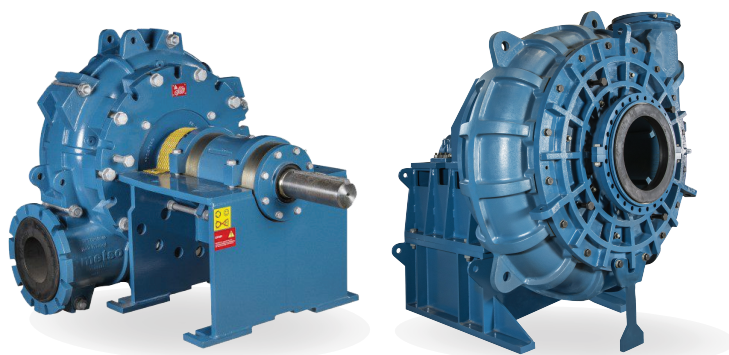

PROCESS PUMPS

Ruhrpumpen is an innovative and efficient pump technology company that offers highly-engineered and standard pumping solutions for the oil & gas, power generation, industrial, chemical and water markets. We offer a broad range of centrifugal and reciprocating pumps that meet and exceed the requirements of the most demanding quality specifications and industry standards such as API, ANSI, ISO and Hydraulic Institute.

SLURRY PUMPS

Slurry pumps are heavy and robust centrifugal pumps capable of handling tough and abrasive duties. Metso's comprehensive slurry pump offering covers horizontal pumps and vertical pumps.

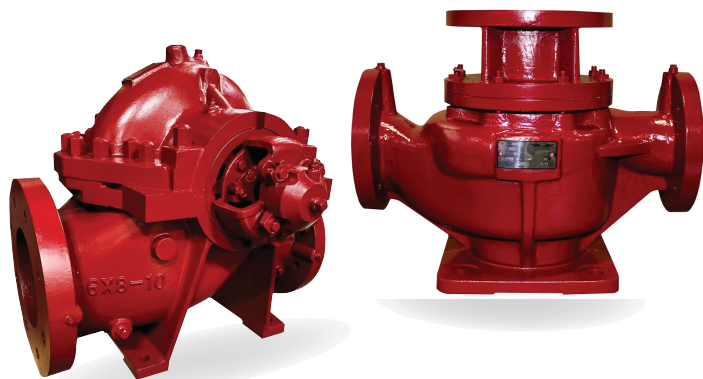

PUMPS AND PARTS

Headquartered in Houston, Texas, is a premier manufacturer of aftermarket ANSI B73.1 pumps and parts. We also offer self-priming pumps, gear pumps and XL blender pumps.

WATER PUMPS

EBARA Pumps Americas Corporation (EPAC) strives to deploy the best water pumps, wastewater pumps, pump systems, and technologies to meet the needs of our growing communities.

PUMPS AND PARTS

A leading manufacturer of centrifugal & positive displacement pumps, electrical motors, mechanical seals and fire protection fittings, couplings and pumping equipment. The company, which is over 140 years old, is one of the oldest pump manufacturers in the world. Collectively its five divisions cover the industrial, municipal, commercial, irrigation and fire protection markets.
